Journal of Applied Phycology

Contents of Volume 6, 1994

Vol. 6 No. 1 February 1994

M. Ohno, D.B. Largo & T. Ikumoto: Growth rate, carrageenan yield and gel properties of cultured *kappa*-carrageenan producing red alga *Kappaphycus alvarezii* (Doty) Doty in the subtropical waters of Shikoku, Japan 1

D.F. Kapraun, J.C. Bailey & J.A. Dutcher: Nuclear genome characterization of the carrageenophyte *Hypnea musciformis* (Rhodophyta) 7

L. León & F. Galván: Halotolerance studies on *Chlamydomonas reinhardtii*: glycerol excretion by free and immobilized cells 13

C.J. Dawes, A.O. Lluisma & G.C. Trono: Laboratory and field growth studies of commercial strains of *Eucheuma denticulatum* and *Kappaphycus alvarezii* in the Philippines 21

M. Honya, T. Kinoshita, M. Ishikawa, H. Mori & K. Nisizawa: Seasonal variation in the lipid content of cultured *Laminaria japonica*: fatty acids, sterols, β-carotene and tocopherol 25

A. Vonshak, G. Torzillo & L. Tomaseli: Use of chlorophyll fluorescence to estimate the effect of photoinhibition in outdoor cultures of *Spirulina platensis* 31

L.C.-M. Chen, J.S. Craigie & Z.K. Xie: Protoplast production from *Porphyra linearis* using a simplified agarase procedure capable of commercial application 35

S.L. Morton & J.W. Bomber: Maximizing okadaic acid content from *Prorocentrum hoffmannianum* Faust 41

K. Gao & K.R. McKinley: Use of macroalgae for marine biomass production and CO_2 remediation: a review 45

M.R. Brown & C.L. Farmer: Riboflavin content of six species of microalgae used in mariculture 61

T. Chrismadha & M.A. Borowitzka: Effect of cell density and irradiance on growth, proximate composition and eicosapentaenoic acid production of *Phaeodactylum tricornutum* grown in a tubular photobioreactor 67

Note

T. Matsubayashi, I. Maruyama, S. Kido, Y. Ando, T. Nakashima & T. Toyota: Effects of deep seawater on the growth of several species of marine micro-algae 75

Microalgal Biotechnology and Commercial Applications

Guest editor: BRUCE C. PARKER

B.C. Parker, R.J. Radmer, F.C.T. Allnutt & H. Chen: Introduction 91

PART I. CURRENT STATUS OF CLOSED-SYSTEM PROCESSES
R.J. Radmer & B.C. Parker: Commercial applications of algae: opportunities and constraints 93
J.A. Running, R.J. Huss & P.T. Olson: Heterotrophic production of ascorbic acid by microalgae 99
A.N. Glazer: Phycobiliproteins – a family of valuable, widely used fluorophores 105
P.W. Behrens, V.J. Sicotte & J. Delente: Microalgae as a source of stable isotopically labeled compounds 113
W.R. Barclay, K.M. Meager & J.R. Abril: Heterotrophic production of long chain omega-3 fatty acids utilizing algae and algae-like microorganisms 123
R.M. Gladue & J.E. Maxey: Microalgal feeds for aquaculture 131

PART II. NATURAL PRODUCTS AND BIOACTIVE COMPOUNDS
W.H. Gerwick, M.A. Roberts, P.J. Proteau & J.-L. Chen: Screening cultured marine microalgae for anticancer-type activity 143
G.M.L. Patterson, L.K. Larsen & R.E. Moore: Bioactive natural products from blue-green algae 151
K.L. Rinehart, M. Namikoshi & B.W. Choi: Structure and biosynthesis of toxins from blue-green algae (cyanobacteria) 159

PART III. TRANSFORMATION AND EXPRESSION IN MICROALGAL SYSTEMS
J. Elhai: Genetic techniques appropriate for the biotechnological exploitation of cyanobacteria 177
S.E. Stevens, Jr., R.C. Murphy, W.J. Lamoreaux & L.B. Coons: A genetically engineered mosquitocidal cyanobacterium 187
F. Ferreira & N.A. Straus: Iron deprivation in cyanobacteria 199
P.W. Miller, B.L. Russell & R.R. Schmidt: Transcription initiation site of a NADP-specific glutamate dehydrogenase gene and potential use of its promoter region to express foreign genes in ammonium-cultured *Chlorella sorokiniana* cells 211
K.E. Apt, D. Bhaya & A.R. Grossman: Characterization of genes encoding the light-harvesting proteins in diatoms: biogenesis of the fucoxanthin chlorophyll *a/c* protein complex 225
K.L. Kindle & O.A. Sodeinde: Nuclear and chloroplast transformation in *Chlamydomonas reinhardtii*: strategies for genetic manipulation and gene expression 231
S.E. Bingham & A.N. Webber: Maintenance and expression of heterologous genes in chloroplast of *Chlamydomonas reinhardtii* 239
E.C. Henry & R.H. Meints: Recombinant viruses as transformation vectors of marine macroalgae 247

ABSTRACTS 255
Antitumor and anti-HIV factors from algae
Culturing microalgae for bioactive compounds
Expression of foreign genes in filamentous cyanobacteria
Cloning genes identified by phenotype in *Chlamydomonas*
An ordered library approach to the isolation of genes responsible for mutant phenotypes in *Chlamydomonas reinhardtii*

Book review 257

Announcements 259

Vol. 6 No. 3 June 1994

S.M.F.O. Azevedo, W.R. Evans, W.W. Carmichael & M. Namikoshi: First report of microcystins from a Brazilian isolate of the cyanobacterium *Microcystis aeruginosa* 261
J.A. Dutcher & D.F. Kapraun: Random amplified polymorphic DNA (RAPD) identification of genetic variation in three species of *Porphyra* (Bangiales, Rhodophyta) 267
J.M. Franco, P. Fernández & B. Reguera: Toxin profiles of natural populations and cultures of *Alexandrium minutum* Halim from Galician (Spain) coastal waters 275
G. Blunden, J. Currie & D.E. Thurston: Cleavage of DNA by brown algal polyphenols 281
M.P. Sánchez-Saavedra & D. Voltolina: Culture of *Pavlova lutheri* (Droop) Green (Prymnesiophyta) in diluted wastewater 285
R.L. Mendes, H.L. Fernandes, J.A.P. Coelho, J.M.S. Cabral, A.M.F. Palavra & J.M. Novais: Supercritical carbon dioxide extraction of hydrocarbons from the microalga *Botryococcus braunii* 289
M. Tanticharoen, M. Reungjitchachawali, B. Bunnag, P. Vonktaveesuk, A. Vonshak & Z. Cohen: Optimization of γ-linolenic acid (GLA) production in *Spirulina platensis* 295
B.A. Faafeng, E. van Donk & S.T. Källqvist: *In situ* measurement of algal growth potential in aquatic ecosystems by immobilized algae 301
J. Simmer, V. Tichý & J. Doucha: What kind of lamp for the cultivation of algae? 309
L. Saoudi-Helis, J.-P. Dubacq, Y. Marty, J.-F. Samain & C. Gudin: Influence of growth rate on pigment and lipid composition of the microalga *Isochrysis* aff. *galbana* clone T.iso 315
J. Aguilera, C. Jiménez, J.M. Rodriguez-Maroto & F.X. Niell: Influence of subsidiary energy on growth of *Dunaliella viridis* Teodoresco: the role of extra energy in algal growth 323
J.U. Grobbelaar: Turbulence in mass algal cultures and the role of light/dark fluctuations 331
S.M. Renaud, D.L. Parry & Luong-Van Thinh: Microalgae for use in tropical aquaculture I. Gross chemical and fatty acid composition of twelve species of microalgae from the Northern Territory, Australia 337
S.M. Renaud & D.L. Parry: Microalgae for use in tropical aquaculture II. Effect of salinity on growth, gross chemical composition and fatty acid composition of three species of marine microalgae 347

Note
Luong-Van Thinh: Potential use of ageing cultures of *Isochrysis* aff. *galbana* (*Isochrysis* Tahitian, T.Iso) as starter cultures for live algal food production in tropical aquaculture 357

Notes and comments 364

Vol. 6 No. 4 August 1994

J.L. Wee, S.A. Harris, J.P. Smith, C.P. Dionigi & D.F. Millie: Production of the taste/odor-causing compound, *trans*-2, *cis*-6-nonadienal, within the Synurophyceae 365
P.C. Breden & K.T. Bird: Effects of environmental factors on carrageenan from *Gymnogongrus griffithsiae* (Gigartinales, Rhodophyta) 371
Y. Gonen, E. Kimmel & M. Friedlander: Attenuation of water velocity and incident light as a function of shape parameters in *Gracilaria* 381
Hu Qiang & A. Richmond: Optimizing the population density in *Isochrysis galbana* grown outdoors in a glass column photobioreactor 391

K. Matsunaga, Y. Suzuki, K. Kuma & I. Kudo: Diffusion of Fe(II) from an iron propagation cage and its effect on tissue iron and pigments of macroalgae on the cage 397
S.L. Wong, L. Nakamoto & J.F. Wainwright: Identification of toxic metals in affected algal cells in assays of wastewaters 405
K.S. Wang & Tuu-jyi Chai: Reduction in omega-3 fatty acids by UV-B irradiation in microalgae 415

Notes
F. Martinez-Jerónimo & F. Espinosa-Chávez: A laboratory-scale system for mass culture of freshwater microalgae in polyethylene bags 423
J. van Staden, S.J. Upfold & F.E. Drewes: Effect of seaweed concentrate on growth and development of the marigold *Tagetes patula* 427
R.P. Beckett, A.D.M. Mathegka & J. van Staden: Effect of seaweed concentrate on yield of nutrient-stressed tepary bean (*Phaseolus acutifolius* Gray) 429
A.J. Tsavalos & J.G. Day: Development of media for the mixotrophic/heterotrophic culture of *Brachiomonas submarina* 431

Vol. 6 Nos. 5–6 December 1994

P.B. Holst, S.E. Nielsen, U. Anthoni, K.S. Bisht, C. Christophersen, S. Gupta, V.S. Parmar, P.H. Nielsen, D.B. Sahoo & A. Singh: Isethionate in certain red algae 443
I. Levy & M. Friedlander: Seasonal growth activity of local and foreign gracilarioid strains in Israel 447
D.A. Francko, S. Al-Hamdani & G.-J. Joo: Enhancement of nitrogen fixation in *Anabaena flos-aquae* (Cyanobacteria) via low-dose ultrasonic treatment 455
E.A. Ghabbour, A.H. Khairy, D.P. Cheney, V. Gross, G. Davies, T.R. Gilbert & X. Zhang: Isolation of humic acid from the brown alga *Pilayella littoralis* 459
E. Tyihák, G. Blunden & Y.-c. Ma: Quantitative estimation of betaines in commercial seaweed extracts using overpressured layer chromatography 469
J.A. Sánchez Pérez: *n*-3 polyunsaturated fatty acid productivity of the marine microalga *Isochrysis galbana*. Growth conditions and phenotypic selection 475
C. Winter, M. Winter & P. Pohl: Cadmium adsorption by non-living biomass of the semi-macroscopic brown alga, *Ectocarpus siliculosus*, grown in axenic mass culture and localisation of the adsorbed Cd by transmission electron microscopy 479
T. Lee, M. Tsuzuki, T. Takeuchi, K. Yokoyama & I. Karube: *In vivo* fluorometric method for early detection of cyanobacterial waterblooms 489
W.A. Nelson, G.A. Knight, R. Falshaw, R.H. Furneaux, A. Falshaw & S.M. Lynds: Characterisation of the enigmatic, endemic red alga *Gelidium allanii* (Gelidiales) from northern New Zealand – morphology, distribution, agar chemistry 497
P.V. McCormick & J. Cairns, Jr.: Algae as indicators of environmental change 509
J. Fleurence, G. Gutbier, S. Mabeau & C. Leray: Fatty acids from 11 marine macroalgae of the French Brittany coast 527
B. Pushparaj, E. Pelosi, G. Torzillo, P. Carlozzi, A. Sacchi & R. Materassi: Growth physiology of a marine nitrogen-fixing cyanobacterium (*Nodularia harveyana*) in outdoor culture 533
A. Chetsumon, I. Maeda, F. Umeda, K. Yagi, Y. Miura & T. Mizoguchi: Antibiotic production by the immobilized cyanobacterium, *Scytonema* sp. TISTR 8208, in a seaweed-type photobioreactor 539

D.F. Kapraun, E. Ganzon-Fortes, K.T. Bird, G. Trono & C. Breden: Karyology and agar analysis of the agarophyte *Gelidiella acerosa* (Forsskål) Feldmann *et* Hamel from the Philippines 545
